Sir:

In response to the Office Action mailed September 5, 2002, please consider the following remarks and enter the following amendments.

IN THE ABSTRACT

Please replace the text of the Abstract beginning at page 22, line 2, with the following rewritten Abstract text:

-- An integrated enclosure/touch screen assembly with a soft thermoplastic outer surface coupled directly to a digitizer mechanism. A touch screen assembly consisting of a display mechanism and a resistive digitizer mechanism are enclosed within a single piece cover. The digitizer mechanism consists of a top film and a digitizing element, and the
